

Energy Development Impact Assessment

Wildlife Specialists, LLC

Providing Wildlife, Plant, and Habitat Surveys and Monitoring for Energy Development Projects:

- Wind Energy
- Utility Right of Ways
- Oil and Gas Well Sites and Pipelines
- Nuclear Energy Sites
- Coal Mining

Some of our Specialties and Services:

- Bat Surveys and Monitoring: using acoustical detection, mist-netting, harp trapping, cave and mine surveys, and mortality monitoring. We have qualified Indiana bat surveyors.
- Rare Plant Surveys: with qualified surveyors for most plant species in the northeastern United States.
- Reptiles and Amphibians: timber rattlesnake, eastern Massassauga rattlesnake, bog turtle, wood turtle, and many other species.
- Bird Surveys: raptor migration counts, breeding bird surveys, mortality monitoring
- Habitat Surveys: both terrestrial and aquatic surveys
- Wetland Delineation
