

## *Wildlife Specialists, LLC*

**Wildlife Specialists, LLC, offers a variety of aquatic services necessary for assessing the impact of development projects on aquatic systems, as well recovery of disturbed aquatic areas and improvement of existing habitat.**

**Aquatic Services:** Wildlife Specialists offers stream and pond quality assessment via assays of water chemistry and invertebrate, fish, and vegetative communities with cooperation through certified laboratories.

**Specifically, staff have experience in the following:**

- EPA Rapid Bioassessment Protocol for streams
- Macroinvertebrate sampling and identification
- Fish sampling (including electroshocking)
- Assessment of physical and chemical parameters
- Construction inspection and monitoring of natural stream design and stream restoration projects

**Timely Response:** Once a client submits a request, we provide thorough site assessments to determine the impact of a project. Upon completion of fieldwork, comprehensive reports are produced and delivered to the client in a timely manner.

**Comprehensive Reporting:** Our reports contain all necessary information required by the regulatory agencies to evaluate a project. Specifically, we provide detailed site descriptions, high quality maps, photographs, and all data collected at each site.

**Providing Aquatic Services for:**

- Wind Energy Development
- Utility Rights of Way
- Oil & Gas Well Sites and Pipelines
- Coal Mining
- Transportation
- Private Landowners
- Land Development Projects
