

Energy Development Impact Assessment

Wildlife Specialists, LLC

Providing wildlife, plant, and habitat surveys and monitoring for energy development projects.

Services Including:

- **Bat Surveys and Monitoring:** Acoustical detection, mist-netting, harp trapping, cave and mine surveys, and mortality monitoring. We can also provide qualified expertise for threatened and endangered species including Indiana bats.
- **Wetland Delineation:** Comprehensive wetland assessments by certified staff using the U.S. Army Corps of Engineers' Manual and Regional Supplements.
- **Reptiles and Amphibian Surveys:** Habitat and species surveys for the timber rattlesnake, eastern Massassagua rattlesnake, bog turtle, wood turtle, green salamander, and many other species.
- **Rattlesnake Construction Monitoring:** Qualified construction monitors to meet agency requirements.
- **Allegheny Wood Rat Surveys:** Habitat, sign, presence, and live-trapping surveys.
- **Bird Surveys:** Raptor migration counts, breeding bird surveys, mortality monitoring, Northern Goshawk surveys.
- **Habitat Surveys:** Terrestrial and aquatic surveys for development impact assessments, including pond and stream bioassays.
- **Rare Plant Surveys:** Qualified surveyors for most plant species in the northeastern United States.
- **Invasive Plant Surveys:** Surveys designed specifically to meet Pennsylvania DCNR requirements.
