

## WILDLIFE SPECIALISTS, LLC—Company Resume

### Overview

Wildlife Specialists, LLC, is a natural resources consulting firm that was established in 2007 to provide clients with comprehensive wildlife assessment, planning, and monitoring services. We are comprised of established professionals who are well-versed in the environmental review process and have extensive experience communicating and negotiating with regulatory agencies. Our headquarters is conveniently located in Wellsboro, the heart of the Marcellus Shale play, which enables our clients to use a firm with expert local knowledge and staff that have experience working directly with gas companies and engineering firms in Pennsylvania, New York, Ohio, and West Virginia every day.

### Services

We are committed to providing high quality services that effectively meet our clients' needs and are conscious of project permitting and development schedules. As a result, we offer our clients comprehensive services that address the full range of sensitive species and habitat assessments necessary for energy development projects. Our staff are qualified experts recognized by the state and federal regulatory agencies in Pennsylvania.
