

Rare Plant Surveys

Oakes' Evening Primrose
(*Oenothera oakesiana*)

Virginia Blue Flag (*Iris virginica*)

Wildlife Specialists, LLC

Wildlife Specialists, LLC, is experienced in rare plant surveys and provides thorough and efficient assessments necessary for sensitive habitat avoidance and environmental compliance.

Qualified Surveyors: Our professional staff are qualified and trained to follow protocols established by the Pennsylvania Department of Conservation and Natural Resources.

Timely Response: Once a client submits a survey request, we provide thorough site assessments to determine the impact of a project. Upon completion of fieldwork, comprehensive reports are produced and delivered to the client in a timely manner to avoid costly delays in the permitting process.

Comprehensive Reporting: Our reports contain all necessary information required by the regulatory agencies to evaluate a project. Specifically, we provide detailed site descriptions, high quality maps, photographs, and all data collected at each site. In addition, we offer recommendations on how clients can avoid or reduce their impact on sensitive plant and their habitats.

Post-Development Monitoring: Where necessary, we provide long-term monitoring of sites to assess ecological responses to development activities.

Providing Rare Plant Surveys for:

- Wind Energy Development
- Utility Rights of Way
- Oil & Gas Well Sites and Pipelines
- Coal Mining
- Transportation
- Private Landowners
- Land Development Projects
